**W**hen Rachel Warner went to visit her beautiful record executive sister in Hollywood, she expected her vacation to be exciting compared to her life in Kansas. Little did she realize how far she'd be walking on the wild side. Her sister, Abby, had it all – a glamorous world at her fingertips. She frequented high powered clubs, drove a Mercedes and befriended the world of rock n' roll. Murder shouldn't have been in her cards.

In the town where love often comes cheap and people tend to play dirty, Rachel quickly learns to shed her inhibitions. To solve the murder, she must enter the glamour and decadence of living on the edge in nighttime L.A. A seductive man, a fading bi-sexual rock star, kinky morals – Rachel must dig through this scum to find the truth.

Featuring music by BILLY IDOL, LOU REED, GO WEST, FUN BOY THREE, ANDD MORE and NICK GILDER, *HOT CHILD IN THE CITY* is a technically powerful combination of story and music stylized in the rhythmic hipness of the 1980's.
